EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification

Page 30: line 14, "83" has been replaced with -- 82 --.

Page 31: line 2, after "port", -- 83 -- has been inserted, and after "chamber", "83" has been replaced with -- 82 --.

Page 32: lines 5-7, "83" has been replaced with -- 82 --.

In the Claims

In claim 68: line 6, "an" has been replaced with -- said --; and line 7, "point to an" has been changed to -- arm to said --, otherwise "the output point" recited on line 7 has no antecedent basis.

Remark: Please note page 2 of Applicants' "Response and Amendment" dated May 10, 2005 is not seen in the file.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: 13 independent claims, namely claims 1, 2, 3, 17, 30, 40, 50, 60, 68, 69, 70, 78 and 81, are among the 83 claims presented. Of the above 13 claims, claim 1 is the broadest. Claim 1 calls for a bimorphic polymeric photomechanical body that comprises a layer of non-

isotropic polymeric photomechanical material. Three best references are noted: Fettig et al, Motamedi et al and Yevick. Vis-à-vis these references, claim 1 still distinguishes thereover in that the bimorphic element of the patents is made from **electromechanical** material, and that of claim 1, from **photomechanical** material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
